Summary

I am an analytical web developer with 8 years of team leadership experience. I pride myself in being highly motivated and a proficient problem solver with a keen eye for detail. I have successfully lead multiple teams to yield better results in less time with an attention to detail.

Experience

Addon Writer
2005- Present
- Would write and edit LUA code to create game-play addons for games such as World of Warcraft.
- Customized previous build addons to meet user's needs.

Chef
Zafferano Catering LLC | April 2021- October 2021
- Lead diverse teams of up to 7 chefs to meet deadlines for large orders.
- Managed overall quality of all stations while troubleshooting problems in the moment.

Pastry Chef
Pappalecco | October 2021- Present
- Manages large orders of items to multiple locations throughout the city.
- Helps update items to customers requests and changing trends.

Education
